THEORY OF THE EARTH

The earth is a sphere, and its surface is divided into two parts, the land and the water.

The land is divided into continents and islands. The continents are the large masses of land, and the islands are the small pieces of land. The water is divided into oceans and seas. The oceans are the large bodies of water, and the seas are the smaller bodies of water. The earth is also divided into countries and states. The countries are the large political divisions, and the states are the smaller political divisions. The earth is also divided into cities and towns. The cities are the large settlements, and the towns are the smaller settlements. The earth is also divided into villages and hamlets. The villages are the small settlements, and the hamlets are the very small settlements. The earth is also divided into farms and fields. The farms are the large areas of land used for agriculture, and the fields are the smaller areas of land used for agriculture. The earth is also divided into forests and woods. The forests are the large areas of land covered with trees, and the woods are the smaller areas of land covered with trees. The earth is also divided into mountains and hills. The mountains are the high peaks of land, and the hills are the lower peaks of land. The earth is also divided into rivers and streams. The rivers are the large bodies of water that flow in a channel, and the streams are the smaller bodies of water that flow in a channel. The earth is also divided into lakes and ponds. The lakes are the large bodies of water that are surrounded by land, and the ponds are the smaller bodies of water that are surrounded by land. The earth is also divided into bays and gulfs. The bays are the large bodies of water that are partially enclosed by land, and the gulfs are the smaller bodies of water that are partially enclosed by land. The earth is also divided into straits and channels. The straits are the narrow passages of water between land, and the channels are the narrow passages of water between land.
